

# IMMACULATE DONS

Data Quality Analyst & Team Leader

## About me

Detail-oriented data professional with expertise in data annotation and quality control. Experienced in delivering high-quality datasets for machine learning and training team members to enhance performance. Strong analytical and communication skills, committed to maintaining data integrity and driving operational efficiency.

## Work experience

### Team Captain

Jan 2024 - Present

#### CloudFactory - Nairobi, Kenya

- Increased team efficiency by regularly updating performance dashboards and ensuring accurate data for reviews.
- Boosted team productivity by training new members and conducting targeted sessions, aligning performance with company goals.
- Resolved operational bottlenecks by collaborating with leaders to improve throughput and accuracy.
- Enhanced project transparency by maintaining up-to-date reports and backlog data for timely client sharing.
- Mitigated risks by providing hourly progress updates and ensuring on-time project completion.
- Ensured 100% task completion by monitoring data submissions and follow-up procedures.
- Elevated team performance through continuous feedback, addressing concerns and driving improvements.

**Skills:** Team Leadership, Quality Control, Data Management

### Data Annotation Specialist

Oct 2019 - Mar 2024

#### 3D and 2D AI Data | Remotasks Kenya

- Led high-impact annotation projects, delivering precise image, text, and audio datasets using Labelbox for machine learning models.
- Improved AI accuracy by annotating data for autonomous vehicles, focusing on object mapping like vehicles, pedestrians, and road signs.
- Optimized workflow by collaborating with a remote team to meet strict quality standards and achieve high data accuracy.
- Streamlined processes by implementing best practices, leading to consistent, high-quality results in AI training datasets.
- Enhanced advertising campaigns by accurately annotating sports videos and imagery for clients.

**Skills:** data annotation, data management

### Data Quality Assurance Specialist

June 2023 - Oct 2024

#### Toloka AI - Freelance

- Maintained top-tier data quality by meticulously reviewing and providing feedback on annotated datasets, ensuring high accuracy.
- Fostered global collaboration, working with an international team to refine quality control processes and exchange best practices.
- Drove continuous improvement by adapting to platform changes and contributing to the enhancement of AI data reliability.

**Skills:** Quality Control, Adaptability
